

Dr. Jorge Chahla-Hip Surgical Medical Equipment

Medically Necessary Equipment:

- ***KIMBO Hip Brace System** (*Must be fit to patient at any DME Store prior to surgery day and brought to surgical location*)
- ***Post-op Hip OR Kit** (Delivered to patient during the procedure at no cost, and is additionally used when sleeping at home)
- **Standard Hinged Post-Op Knee Brace** (Required for knee or hamstring repairs after surgery-delivered to surgery location)
- **Crutches if needed** (Received after surgery if needed-available at surgery location)

Optional Medical Equipment:

- **Optional Water Circulating 'Donjoy Iceman'** (Pick-up required for hip patients at the time of your hip brace fitting)
- **Optional Cold Compression 'Breg Wave'** (Pick-up required for hip patients at the time of your hip brace fitting)

KIMBO Post-Op Hip Brace System (KIMBO Hip Brace, KIMBO SnoPak, and KIMBO Leg Pillow): Once approved through your insurance, our DME Store will call you approximately 1-2 weeks before surgery to schedule an initial sizing and pick-up for this product at least one business day prior to surgery. If you have further questions, please reach out to a DME Store below.

- **KIMBO Hip Brace** is utilized for all hip surgeries. The brace allows hip flexion to 90 degrees and reduces hip rotation, hip extension, and hip abduction.
- **KIMBO Hip Positioning Leg Pillow** Can Velcro to the interior of brace at mid-thigh to help prevent rotation while sleeping
- **KIMBO SnoPaks (2 ice attachments)** Can Velcro to the interior of brace at hip joint/incision for additional cold therapy
 - *Additional SnoPaks available for purchase. Contact DME Store for further information and pricing.*

** If you live far from one of our Midwest Orthopaedics at RUSH facilities, please stop by the DME Store following your physician appointment or call one of the DME Stores below for additional options.*

Optional Breg Polar Care Wave Ice Machine: Provides cooling and intermittent compression to the extremity. Use should be approximately 20-30 minutes when awake every hour as needed unless otherwise directed by Dr. Chahla. Product is not billed to private insurance and must be paid and picked up at a DME Store prior to surgery.

Optional Donjoy Iceman Ice Machine: Ice Machine provides cooling with cold ice water from unit to the extremity. Use should be approximately 20-30 minutes when awake every hour as needed unless otherwise directed by Dr. Chahla. Product is not billed to private insurance and must be paid and picked up prior to surgery.
